DBMS Course Project 2017 CO303

City Bus Management System

NIHALA KARAPoola (15CO231) | PUSHPITA PATIL (15CO235)

**Project Aim:** To design an effective and efficient database management system to book bus seats, for commute in the Manipal-Udupi-Mangalore area. The site designed will also allow for login functionality, and of different types of users (admin and customer).
